

Computer (Single PTZ Camera, and any combination of USB based cameras)

Description	Minimum	Recommended
CPU	i Series Intel (i5 or higher)	i9 Intel family
RAM	16GB	32GB or more
Screen Resolution	1920 X 1080	1920 X 1080 or higher
Video	1GB	6GB or more
Hard Drive Space	1.67GB	>1.67GB

* Onboard video may not provide satisfactory performance based on the manufacturer chipset. It is strongly recommended to use a separate PCI-X or other video card as it will provide better performance versus onboard video. We recommend the Nvidia chipset model GTX 3050 6GB video card.
